What is your child's strongest subject? Music
How does your child learn best? Reading/writing (text-based)
Has your child ever mentioned a specific dream job? If so, what? She wants to be a singer.

AI Analysis

Niskriti is an 8-year-old with a strong interest in music and creative activities. She is a quick learner and enjoys both independent and group work, showing a preference for flexible learning environments. While she excels in music, she faces challenges in math and science.

Strengths	Areas for Growth
-----------	------------------

- Quick learner
- Strong interest in music
- Good communication skills
- Leadership tendencies
- Adaptability to new situations

- Struggles with math
- Needs improvement in science
- Could benefit from enhanced problem-solving skills

Learning Style

Niskriti learns best through reading and writing, and she can focus well on tasks. She prefers a quiet environment for concentration and benefits from detailed written feedback. While she somewhat prefers group work, she is also comfortable working independently.

Personality

Niskriti is a curious and adaptable child who enjoys socializing and trying new things. She is empathetic and shows confidence in expressing her opinions, though she works best in structured environments. Her calm demeanor under pressure helps her navigate challenges effectively.

Career Interests

Niskriti shows strong interest in arts, design, and media, with aspirations to become a singer. She values creativity and technology, and she has expressed interest in potentially starting her own business. Her curiosity about international work suggests she is open to diverse opportunities.

Confidence Score: 85%
